Introduction

AUDIENCE DATA ITALY

Global Data Resources is the owner and developer of IDfree: The digital advertising platform built on ethical and privacy-compliant data sources, see idfree.com.

We empower marketers to reach their target audience without compromising user data security. We provide a variety of pre-built audience segments based on lifestyle behaviours, or you can work with us to create custom groups tailored to your specific campaign goals.

GEO HOT SPOTS

We have identified millions of unique neighbourhoods (a minimum of 15 households). See more in our white paper [Why Neighbourhoods Matter](#).

Our dynamic cluster algorithm pinpoints relevant geographical hot spots for hundreds of social-demographic characteristics and consumer attitudes and preferences.

This list is a complete record of audience data available to you in **Italy**.
